To dennis Buford-DFG

Dear Dennis, I know you agree that this portion of the Santa Clara river is a very significant ecological preserve and it would be prudent and correct to save this beautiful area in its original pristine state. It is not only pretty but it is also an essential wildlife corridor and source of water. I know I can trust you to preserve this site in its original pristine state. Sincerely Asoka Jayaweera La Verne

Response 1

The comment addresses subject areas that received extensive analysis in the Draft EIS/EIR, **Section 4.3**, Water Resources; **Section 4.5**, Biological Resources; and **Section 4.15**, Visual Resources. In addition, please refer to **Topical Response 11: River Corridor SMA/SEA 23 Consistency**, regarding the proposed Project's relationship to the on-site SEA area, and **Topical Response 12: Wildlife Habitat Connectivity, Corridors, and Crossings**, regarding the Project's effects on wildlife corridors. In addition, for further responsive information, please see revised **Sections 4.3** and **4.5** of the Final EIS/EIR. The comment does not raise any specific issues regarding the analysis provided in the Draft EIS/EIR; therefore, no additional response is provided. However, the comment will be included as part of the record and made available to the decision makers prior to a final decision on the proposed Project.
