

## LIVESTOCK LOSS DETERMINATION

**Investigation ID:** 062023-LAS

**Date Investigated:** 6/20/23

### Cause of Death:

- Confirmed Wolf
- Probable Wolf
- Possible Wolf
- Non-Wolf Depredation - 1 adult cow
- Non-Depredation
- Unknown - 1 calf

**General Area:** Plumas County, USFS, Lassen pack area

**General situation and animal information:** Wildlife Services investigated a dead adult cow and a dead calf on June 20. The cow carcass was in sufficient condition to allow for a thorough investigation while the calf carcass was fully consumed and therefore not enough remained for a thorough investigation. It is not known if the two carcasses were related to each other.

**Physical evidence of wolf predation:** There was no evidence of predation.

**Evidence of wolf presence near the time of the animal(s) death/injury:** Wolf track were found in the general area.

**Summary:** There was no evidence of predation on the cow carcass, and therefore is a non-wolf depredation. The calf cause of death is unknown because there was not enough carcass to investigate.
