

# Just A Note

have lost.

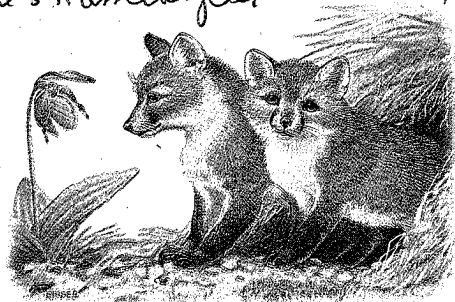

I work near the river,  
and it is a beauty to look at  
when I go to work.

It makes me think of  
other beautiful rivers we use  
to have.

People here to start thinking  
more than twice about what they  
are doing to our land and the  
wildlife who live there.

# Just A Note

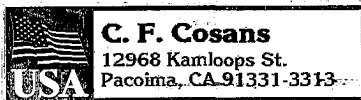

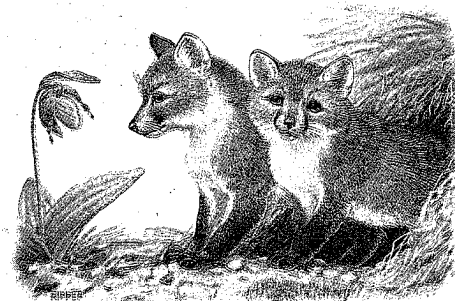

To Whom It May Concern;

I'm regard for people  
wanting to do away with  
Santa Clara (natural) river.

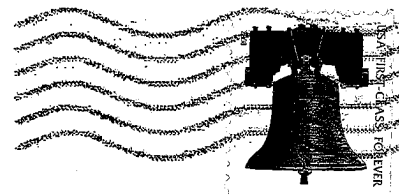

We are destroying almost  
everything that is good,  
beautiful, has wonderful wild life  
depending on it to live.

All this for the sake of  
money, some how we have to  
stop these people.

When its gone there is no  
going back and look what we

**105. Letter from C.F. Cosans, dated June 13, 2009**

---

**Response 1**

The Corps and CDFG appreciate the comment provided in your letter regarding the visual resources provided by the Santa Clara River and the wildlife that use the River. Please note that the Project's impacts to visual conditions were extensively evaluated in Draft EIS/EIR, **Section 4.15**, Visual Resources, and impacts to wildlife were evaluated in **Section 4.5**, Biological Resources. In addition, for further responsive information, please see revised **Section 4.5** of the Final EIS/EIR. Your opinion regarding the Santa Clara River and the proposed Project will be included as part of the record and made available to decision makers prior to a final decision on the proposed Project. However, because the comment does not address the content of the Draft EIS/EIR, no additional response is provided.
