Subject: Need an Extension

Dear Sirs,

Given the voluminous nature of the document that documents how Newhall Land will mitigate the effects on plants and animals in its Newhall Ranch project, I urge you to grant an extension so that all of the document can be reviewed by locals who have an interest and by experts who can give a fair critique. Given the fact that this project will have a major impact on the quality of life in the neighboring regions as well as the environment and ecology of the Santa Clara River and surrounds, it seems only fair and logical that the extension be granted.

thank you for you attention to this matter

Larry Schallert
