**Subject:** public comments on newhall ranch EIR/EIS

To whom it concerns,

I urge you to lengthen the public comments to 120 days. The extension is important because the documents are too huge to comb through in a short period of time. Everything needs to be checked too.

The Santa Clara River is the only last wild river left. It is the last unchannel water shed .

Wildlife is not protected under this plan. Wildlife are on the endangered species list..

this Newhall ranch development is building over 21,000 units. This will create huge problems, such as having huge traffic problems and dealing with a water shortage. DO NOT go ahead with this plan.

Thank you,

Dorri Raskin

**110. E-mail from Dorri Raskin, dated June 18, 2009**

---

**Response 1**

In response to this and other requests, the Corps and CDFG extended the comment period for the Draft EIS/EIR. Please refer to **Topical Response 1: EIS/EIR Public Review Opportunities**.

**Response 2**

The comment addresses general subject areas, which received extensive analysis in the Draft EIS/EIR, including **Section 4.3**, Water Resources; **Section 4.5**, Biological Resources; and **Section 4.8**, Traffic. In addition, for further responsive information, please see revised **Sections 4.3, 4.5, and 4.8** of the Final EIS/EIR. The comment does not raise any specific issues regarding the analysis provided in the Draft EIS/EIR; therefore, no additional response is provided. However, the comment will be included as part of the record and made available to the decision makers prior to a final decision on the proposed Project.
