ALTERNATIVELY, YOU MAY EMAIL COMMENTS TO THE FOLLOWING ADDRESSES: Aaron.O.Allen@usace.army.mil or newhallranch@dfg.ca.gov by June 26, 2009.

COMMENTS

I am very concerned about the short time allotted for review and public comment of this project. It is imperative that the public be informed and have a chance to understand the full impacts of this project. In particular, wildlife corridors must be provided for and paid special attention to - not just for their welfare, but for the safety & wellbeing of residents.

I urge you to take these comments into consideration and provide at least 120 additional days for review.

DATA REQUIRED BY THE PRIVACY ACT

AUTHORITY: 33 CFR 327

PRINCIPAL PURPOSE: Distributed at Public Meetings and Workshops to provide a record of attendees, and to develop a mailing list for future public meetings in keeping with the policy of OCE to conduct Civil Works Program in an atmosphere of public understanding, trust and mutual cooperation. All interested individuals and agencies are to be informed and afforded an opportunity to be heard and their views considered in arriving at conclusions, decisions, and recommendations in the formulation of civil works proposals, plans, projects, and on the proposed uses of navigable waters.

ROUTINE USES: Utilized for determining attendance at Public Meetings; determining who desires to speak at Corps Public Meetings and developing mailing lists for various Corps studies.

DISCLOSURE: Voluntary. Failure to provide information may result in not being contacted for future public meetings, etc.

135. Public Hearing Comment Card from L. Maya Uhl

Response 1

The comment requests that: (i) the public review and comment period be extended, and (ii) special attention be paid to wildlife corridors in the environmental analysis. In response to this and other requests, the U.S. Army Corps of Engineers (Corps) and California Department of Fish and Game (CDFG) extended the comment period for the Draft EIS/EIR. Please refer to **Topical Response 1: EIS/EIR Public Review Opportunities**, for additional responsive information. As to the concerns expressed about wildlife corridors and potential wildlife safety issues, the Draft EIS/EIR contains an extensive evaluation of wildlife corridors in **Subsection 4.5.5.2.4**, Impacts to Wildlife Movement and Habitat Connectivity (pages 4.5-561 through 4.5-596), which addresses potential impacts to wildlife habitat linkages, corridors and crossings. In addition, please refer to **Topical Response 12: Wildlife Habitat Connectivity, Corridors, and Crossings**, and revised **Section 4.5** of the Final EIS/EIR. The comment will be included as part of the record and made available to the decision makers prior to a final decision on the proposed Project.
