138. Public Hearing Comment Card from Sharon Ford, dated June 11, 2009

Response 1

In response to this and other requests, the U.S. Army Corps of Engineers (Corps) and California Department of Fish and Game (CDFG) extended the comment period for the Draft EIS/EIR. Please refer to **Topical Response 1: EIS/EIR Public Review Opportunities**.

Response 2

This comment expresses general concerns regarding potential impacts to least Bell's vireo (*Vireo bellii pusillus*) and California condor (*Gymnogyps californianus*). Potential impacts to these species received extensive analysis in **Section 4.5**, Biological Resources, of the Draft EIS/EIR. In addition, for further responsive information, please see revised **Section 4.5** of the Final EIS/EIR. The comment does not raise any specific issues regarding the analysis provided by the Draft EIS/EIR; therefore, no additional response is provided. However, the comment will be included as part of the record and made available to the decision makers prior to a final decision on the proposed Project.
