Delta-Suisun Tidal Wetland Restoration Symposium: State of the Science and Future Directions

The State Water Contractors and California Department of Water Resources are jointly hosting a science symposium to discuss the latest research on tidal wetland restoration for support of native fishes in the Delta and Suisun Marsh.

Date: November 1, 2023

Location: Hybrid

- In-person: Capitol Event Center (1020 11th Street, Sacramento)
- Online: This will be a hybrid event and virtual attendance information will follow.

Workshop Goals:

- Provide a forum for wetland researchers and restoration managers to collaboratively discuss the state of the science.
- Identify high-priority science activities needed to fill knowledge gaps.
- Identify high-priority adaptive management activities needed to maximize effectiveness of wetland restoration.

Full agenda and registration will be available mid-October.
