

Item 1a. Sutter's Landing  
Regional Park ADA River Access  
Trail Planning

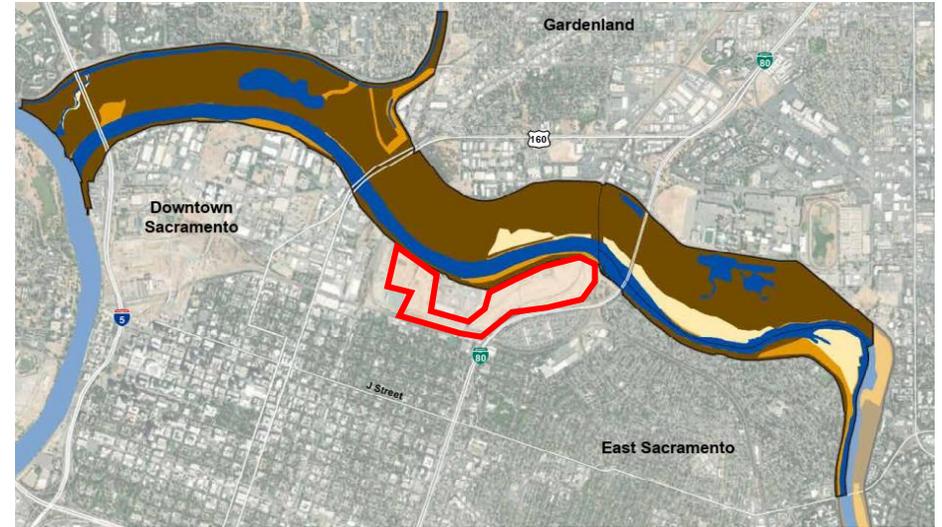

Applicant: City of Sacramento  
Project type: Planning  
WCB Request: \$950,000  
Cost Share: \$50,000

# PROJECT LOCATION

## 1a. Sutter's Landing

- Sutter's Landing Regional Park - immediately adjacent to the Parkway
- Lower reach of the Parkway
- Woodlake Area Plan (on south side of river)
- Within a severely disadvantaged community
- Popular area for beachgoers

# PROJECT NEED

## 1a. Sutter's Landing

---

- Residents with disabilities scored the city at 39% for providing accessible parks and recreation programs
- New public investment is bringing a water-related recreation concession stand to Sutter's Landing Regional Park
- No accessible trail to the river
- No ramp or dock to launch non-motorized watercraft into the river
- Riparian habitat in poor condition due to social trails and legacy homeless encampments
- Formalized trails needed to support community events (educational programs, clean up events)

# PROJECT GOALS

## 1a. Sutter's Landing

---

- Support public investments that address community needs
- Expand equitable access to the American River waterfront
- Support volunteer led community services
- Enhance wildlife habitat
- Reduce habitat degradation
- Provide educational opportunities

# PROJECT OBJECTIVES

## 1a. Sutter's Landing

---

- Complete feasibility study
- Complete public outreach
- Prepare preliminary engineering and final designs
- Prepare environmental documentation
- Complete CEQA review
- Submit construction permit applications

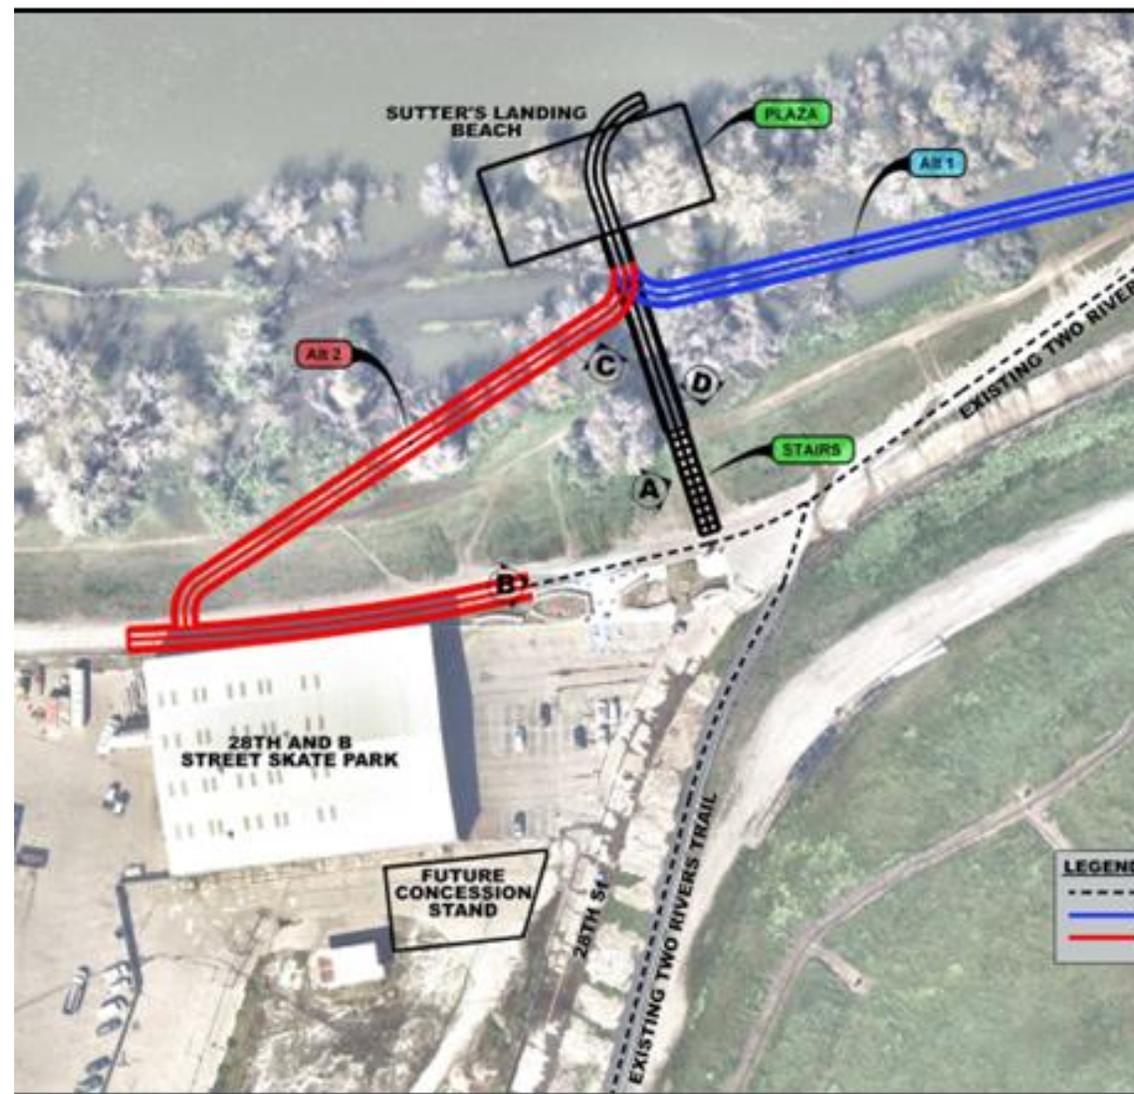

# PROJECT OUTCOMES

## 1a. Sutter's Landing

A shovel ready implementation project that will:

- Address the needs of city residents
- Be feasible and supported by the community and Parkway stakeholders
- Expand access to the river and Parkway for all people
- Support a new water-related recreation concession stand in a SDAC
- Improve and protect wildlife habitat
- Address specific NRMP management actions for the Woodlake Area

# PROPOSAL REVIEW

## 1a. Sutter's Landing

Average Score : 82.5

Reviewers: 2 WCB staff, 2 Advisory Committee members

Magnitude of Benefit (high to lowest): public access, habitat, education, water quality

All reviewer concerns addressed, except:

- Committing to non-paved materials for ADA trail
- Committing to not using rip-rap for any bank stabilization

*These items will be addressed during feasibility study surveys and agency coordination.*

Staff Recommendation: fully fund as proposed and present at a future WCB meeting for final funding decision.

Item 1b. Rossmoor Bar Trail  
Enhancements Planning

Applicant: City of Rancho Cordova

Project Type: Planning

WCB Request: \$597,000

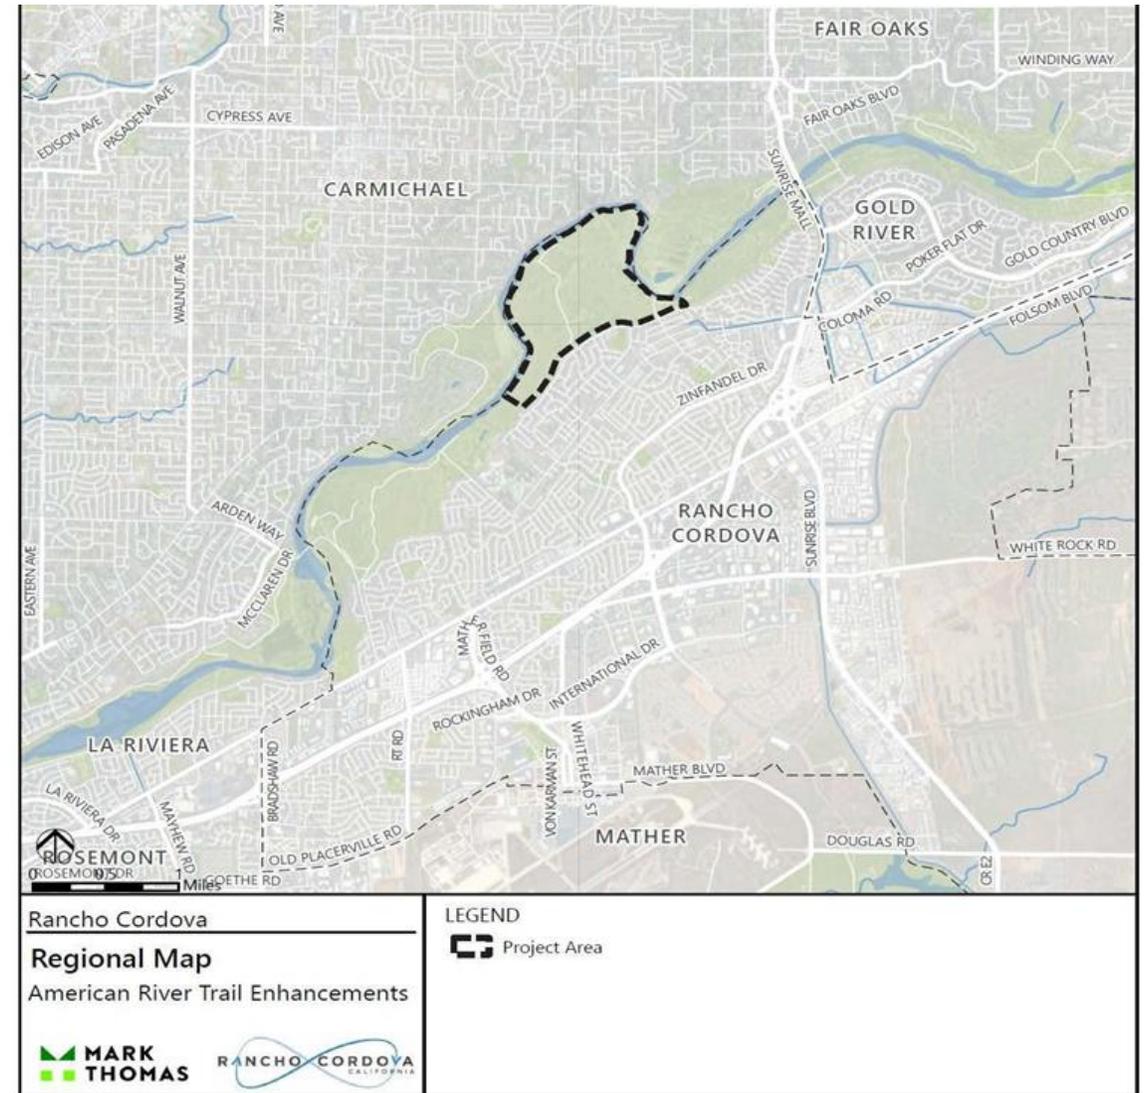

Cost Share: \$78,000

# PROJECT LOCATION

## 1b. Rossmoor Bar

- Within a DAC of City of Rancho Cordova
- Rossmoor Bar Area of Parkway
- Just upstream and across river from previous LARCP investments
- Known for locally rare plants and other native plants
- 40 + year butterfly monitoring transect
- Rich mining history
- Popular area for runners and hikers

# PROJECT NEED

## 1b. Rossmoor Bar

---

- 10.5 miles of social/informal trails pose safety risks, are not accessible, and degrade habitat.
- No formal (and accessible) trail to the river's edge
- High fuel loads increase fire risk
- Habitat in poor to moderate condition
- Limited shade for trail users

# PROJECT GOALS

## 1b. Rossmoor Bar

---

- Formalize a trail system that is durable and accessible
- Close and restore social trails
- Enhance and protect wildlife habitat
- Reduce fire risk
- Provide educational/interpretive opportunities and wayfinding signage
- Increase climate resiliency

# PROJECT OBJECTIVES

## 1b. Rossmoor Bar

- Develop trail concepts and alternatives
- Complete public and stakeholder outreach
- Collaborate with the local Wilton Rancheria tribe
- Complete field surveys
- Develop 65% designs for preferred trail alternative
- Develop planting plan, fuels reduction plan, and interpretive and wayfinding content
- Complete environmental review
- Submit permit applications

# PROJECT OUTCOMES

## 1b. Rossmoor Bar

---

A shovel ready project that will:

- Enhance and expand access to the Parkway and American River waterfront.
- Provide durable and equitable recreational facilities.
- Support Native American tribes and culturally significant plants, practices, and stories.
- Enhance and protect wildlife habitat.
- Promote climate resiliency and reduce the impacts of climate change.

# PROPOSAL REVIEW

## 1b. Rossmoor Bar

Average Score: 80.5

Reviewers: 2 WCB staff, 3 Advisory Committee members

Magnitude of Benefit (highest to lowest): public access, education, habitat, water quality

Applicant addressed all reviewer concerns related to:

- Project schedule
- Long-term management planning
- Fuels reduction planning
- Collaborators
- Project team qualifications
- Letters of support

Staff Recommendation: fully fund as proposed and present at a future WCB meeting for final funding decision.

# WCB RECOMMENDATION TABLE

## 2023 PROPOSALS

PROPOSAL ID	PROPOSAL TITLE	PROJECT TYPE ( Planning, Implementation, Acquisition)	SUMMARY	PROJECT LOCATION	APPLICANT	DAC	CCC/ CALCC	REQUESTED GRANT FUNDS	MATCH FUNDS	TOTAL PROJECT COST	CEQA STATUS	AVERAGE SCORE	RECOMMENDATION
