

**State of California
Department of Fish and Wildlife**

Memorandum

Date: February 17, 2023

To: Scott Gardner
Chief
Wildlife Programs Branch

From: Edmund Pert
Regional Manager
South Coast Region

Subject: 5-Year Renewal Package for Private Lands Wildlife Habitat Enhancement and Management Area Licenses (PLM), South Coast Region

Please approve South Coast Region's PLM for the April 19-20, 2021 State Fish and Game Commission Meeting agenda:

PLM AREA	COUNTY	ACREAGE
Santa Catalina Island	Los Angeles	42,100

This PLM area was previously licensed under Commission regulations under Section 601, Title 14 California Code of Regulations. Full payment was made for all tags used in 2021, and all habitat enhancement projects are ongoing and beneficial for resident wildlife.

The management plan for this area is in compliance with Commission policy requirements for private lands management. The applicant has identified the location where records will be kept and made available for inspection. Habitat improvements accomplished under these plans will enhance and maintain wildlife resources on and around the PLM areas. The goals and objectives stated in the management plans are compatible with Department management plans for appropriate species in these areas. In addition, access to public lands will not be diminished under implementation of these management plans. Routine field inspections revealed that the applicants are in compliance with Department requirements.

Regional personnel recommend that the Commission approve the Santa Catalina Island 2023 PLM license renewal application package, and harvest programs under conditions specified in the Proposed Season, Harvests, and Habitat Improvements Table (attached).

Thank you for your cooperation in this matter. If you have questions regarding this application, please contact Ms. Amelia Viera at (858) 239-9505.
