## Potential Modifications to the Commission Naming Installations Policy

*December 10, 2023*

The Commission Naming Installations Policy is numbered 4.13 for tracking during the 2023-24 Commission policies review process. This document proposes changes to the policy for discussion and feedback at the December 2023 Commission meeting.

The Commission has expressed concerns regarding its existing Naming Installations Policy providing an exception for naming a marine protected area (MPA) after an individual; the over 70-year-old policy was amended in 2012 to allow the exception. Currently, there are three MPAs named after individuals: Lovers Point-Julia Platt State Marine Reserve, Edward F. Ricketts State Marine Conservation Area, and Robert W. Crown State Marine Conservation Area.

Additionally, the Commission has stated the importance of its policies taking into consideration tribal and justice, equity, diversity and inclusion values. The Naming Installations Policy currently does not recognize that, when Europeans arrived, specific geographies already had names established by Native Americans in what is now known as California and off its shores.

For naming purposes, the Commission is directly involved in naming protected areas when it designates such areas: state wildlife areas, ecological reserves, and marine protected areas. The Commission does not have a direct role in establishing, purchasing or naming refuges (established by the California State Legislature), fish hatcheries, vessels, and other installations owned or managed by the Department.

Potential revisions to the policy could include: (1) removing the MPA naming exception; (2) adding a provision to consider, in collaboration with local tribes, tribal placenames when naming or renaming installations, including MPAs; and (3) revising the policy title to reflect proposed policy language focused on protected areas.

If the Commission moves forward with removing the option to name MPAs after individuals, the Commission may wish to specify how to address the three MPAs currently named after an individual. For example, they could be renamed immediately, allowed to remain named as they are, or, if the MPA is renamed, a nearby structure or facility could be named in honor of the individual.

If the Commission moves forward with using tribal placenames, the Commission may wish to consider whether or not a western geographic name might also be referenced to maximize public understanding of where the MPA is located. If a western name is included, the Commission may wish to provide direction regarding a standardized format (e.g., tribal name MPA at western geographic location) and whether to apply the same standard to Kashtayit State Marine Conservation Area and Matlahuayl State Marine Reserve.

Potential revisions are being presented at this meeting for discussion purposes; proposed policy revisions based on Commission and public input are expected to be presented at the February 2024 Commission meeting for potential adoption.
