

California Biodiversity Day 2024:

Accessing California's urban biodiversity and green spaces

TALK DESCRIPTION: Join the CDFW Conservation Lecture Series for the [2024 California Biodiversity Day](#) special! This year's lecture is focused on ways in which people are working together to understand, safeguard, and create equitable opportunities to access and enjoy California's urban biodiversity and green spaces. Join us to hear from three experts from across California sharing about their local urban biodiversity (including bats!) and the actions they are taking to connect communities to the biodiversity and green spaces around them, improving the health and wellness for both people and nature.

DATE: Wednesday, September 11, 2024

TIME: 10:30am – 12:00pm

REGISTRATION LINKS: wildlife.ca.gov/Conservation/Lectures

SPEAKERS:

- ▶ Jade Nguyen is a Project Manager at Nature for All whose portfolio includes advocating for urban greening, open space, and park equity in Los Angeles County.
- ▶ Cesar Estien is an Urban Ecologist at Second Nature Ecology + Design and PhD candidate in UC Berkeley's Department of Environmental Science, Policy, and Management in Dr. Christopher Schell's lab.
- ▶ Corky Quirk is the Program Coordinator at the Yolo Basin Foundation, founder of NorCal Bats and experienced environmental educator.
