190

Subsection (f): Language was changed from "...California Fisheries Chart Series prescribed by the department and available at <https://...>" has been changed to "...California Fisheries Chart Series (REV 08/2024) incorporated by reference herein, and provided by the department and available online at <https://...>".

In accordance with the Administrative Procedures Act, the fishing block chart series needs to be a formal part of the regulation itself (referred to as "incorporating by reference" into the regulation). To comply with the Administrative Procedures Act, The regulatory language was amended to incorporate the fishing block chart series by reference. Providing this provision within Section 190 also adds clarity and consistency to record reporting requirements for all commercial fisheries.
