

LIVESTOCK LOSS DETERMINATION

California Department of Fish and Wildlife

Investigation ID: 071124-TUL

Date Investigated: 07/11/24

Cause of Death:

- Confirmed Wolf
- Probable Wolf
- Possible Wolf
- Non-Wolf Depredation
- Non-Depredation
- Unknown

General Area: Central Tulare County, Tule River Tribal Reservation, Yowlumni Pack area

General situation and animal information: On July 11, the carcass of a two-year-old cow was found and investigated by CDFW personnel.

Physical evidence of wolf predation: There was no observed evidence of wolf predation.

Evidence of wolf presence near the time of the animal(s) death/injury: Yowlumni pack GPS collar data alerted CDFW staff to the location. Wolf scat and prints were observed near the carcass.

Summary: The cause of the cow's death was unknown due to the advanced stages of scavenging and decay.
