

OREHP SAC Meeting Summary

- CASG overview of OREHP Stakeholder Engagement Visioning Process
- SAC Subcommittees updates
 - Post-Release Subcommittee
 - Sorted 16 post-release survival recommendations from 2017 OREHP evaluation report into groups corresponding to ‘Responsible Approach’ principals
 - Top Principal: quantitatively assess contributions of enhancement to fisheries management goals
 - Emphasize quantitative assessment of contributions (and costs) of enhancement to fisheries management goals
 - Develop more comprehensive tag recovery plan that includes regular-interval, fishery-independent monitoring plan targeting juveniles and subadults
 - Develop plan for expanding fishery-dependent monitoring of hatchery fish contribution rates to the fishery

OREHP SAC Meeting Summary (cont'd)

- SAC Subcommittees updates (cont'd)
 - Fish Health & Welfare Subcommittee
 - In process of “fact finding”
 - Received overview of infectious diseases from HSWRI and CDFW
 - Scheduling next meeting to discuss non-infectious diseases
 - Secondary Species Subcommittee
 - Received overview from HSWRI on their CA halibut culture and release research
 - Discussing potential other marine species of interest (finfish and invertebrates) and steps needed to bring another species under the OREHP “umbrella”.
