

Appendix C. The range of means of means, minimum and maximum values, and the range of standard deviations (SD) for overall means for data loggers above ground and in burrows on the control plot and treatment plot in January 2006 (31 d) and July 2006 (31 d). Sample size (n) refers to the number of data loggers from which data were derived. See Figure 9 for the approximate value of means recorded at 0000 and 1200 each day.

Month	Parameter	Location	Range of Means	Minimum/Maximum	Range of SD
January	Temperature	Above Ground (n = 4)	0.95–20.3	0.29–21.0	0.00–2.42
January	Temperature	Control (n = 19)	10.6–15.3	7.8–17.5	1.00–1.56
January	Temperature	Treatment (n = 12)	9.54–14.2	5.4–15.2	0.68–1.74
January	Humidity	Above Ground (n = 4)	34.9–100	27.9–100	0.00–18.0
January	Humidity	Control (n = 17)	87.8–98.9	64.5–100	2.00–9.74
January	Humidity	Treatment (n = 9)	89.8–98.5	86.0–100	2.08–5.89
July	Temperature	Above Ground (n = 4)	20.9–50.1	19.8–21.0	0.23–1.68
July	Temperature	Control (n = 18)	35.3–40.2	27.5–45.4	2.20–2.67
July	Temperature	Treatment (n = 14)	32.2–36.0	27.1–42.5	1.00–2.27
July	Humidity	Above Ground (n = 3)	6.58–52.2	0.00–67.6	4.65–20.7
July	Humidity	Control (n = 17)	48.3–61.8	3.10–90.3	17.9–23.0
July	Humidity	Treatment (n = 10)	70.4–80.0	27.0–98.8	16.2–21.3
