

Region 6 Barrier ID: W145 (Barrier).

Barrier Name: Railroad Drop Structure in Cajon Creek below I-210.

Linear Infrastructure: Railroad Drop Structure in Cajon Creek below I-210.

Geographic Area: Transverse/Peninsular Ranges San Bernardino County, Caltrans District 8.

Length: 0.23 km (0.14 mi).

Target Species: San Bernardino kangaroo rat (*Dipodomys merriami parvus*), Los Angeles pocket mouse (*Perognathus longimembris brevinasus*), speckled dace (*Rhinichthys osculus*).

Connectivity Concerns: This dam across lower Lytle Creek impedes movement of fish species into the upper reaches of Lytle Creek, but species are also impeded by two upstream dams along Lytle Creek.

Remediation Goals: No real opportunities for remediation.
