

Region 6 Barrier ID: W167 (Priority Barrier).

Barrier Name: I-10 El Casco Bridge #56-0370/Cherry Valley

Linear Infrastructure: I-10.

Geographic Area: Transverse/Peninsular Ranges, Riverside County, Caltrans District 8.

Length: 0.11 km (0.07 mi).

Target Species: Mountain lion (*Puma concolor*), bobcat (*Lynx rufus*), coyote (*Canis latrans*).

Connectivity Concerns: This segment along I-10 is a crossing location through a narrow corridor that potentially connects the San Bernardino Mountains with the Badlands/Box Springs Mountains to the west. Suburban development threatens to completely eliminate this narrow corridor.

Remediation Goals: Land acquisition is important here. Install directional fencing, add new under-crossings, and expand/enhance existing infrastructure such as culverts and creek bridges.
