

Region 2 Barrier ID: W187 (Barrier).

Barrier Name: SR-99 at Riego Rd.

Linear Infrastructure: SR-99.

Geographic Area: Sutter County, SR-99 around Riego Road.

Length: 3.09 km (1.92 mi).

Target Species: Giant garter snake (*Thamnophis gigas*).

Connectivity Concerns: This stretch of SR-99 has observed animal vehicle collision and issues for giant garter snakes moving between water sources. Existing culverts could provide connectivity.

Remediation Goals: Expand and enhance existing infrastructure such as culverts, add new wildlife directional fencing.

Figure: SR-99 around Riego Road is a Region 2 wildlife connectivity barrier.
