

2023 Salmon Disaster Estimated Payment Information

The list below presents estimates of individual disaster relief payments generated by applying CDFW logbook and fish ticket data to the [2023 California Salmon Spend Plan](#) (“2023 spend plan”). Each line represents a qualifying entity from the Commercial Troll, Processor, and Commercial Passenger Fishing Vessel sectors. The nine-digit UniqueID field is defined by the last four digits of the entity’s GOID and the five digits of the mailing zip code. Some UniqueIDs repeat in this spreadsheet when an entity qualifies more than once. The payments are rounded to the hundred dollars, except for entities that only qualify for Tier 1 payments for commercial troll of \$739.50.

In-river guide payment estimates cannot be generated and those UniqueIDs are not included below; see the 2023 spend plan for more information.

Unique ID	Estimated Payment	Unique ID	Estimated Payment
