NOTICE OF APPROVAL OF REGULATORY
ACTION

Government Code Section 11349.3

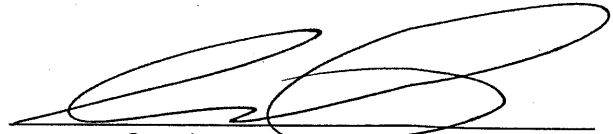

OAL Matter Number: 2025-0711-01

OAL Matter Type: Regular (S)

This rulemaking action by the Office of Spill Prevention and Response ("Office") adopts, amends, and repeals regulations concerning oil spill preparedness and response planning. Specifically, this action replaces existing, previously incorporated Shoreline Protection Tables, dated August 29, 2013, which consist of select area contingency plan ("ACP(s)") environmental sensitive sites, organized by time of potential impact, and required response resources to implement the protection strategy, with a new Site Protection Table that no longer lists specific environmental sensitive sites, but instead sets protection response standards, including boom amounts, protection hours, and dedicated boom requirements, for geographic response areas ("GRA(s)") within the ACPs. This action further establishes the same protection standards for vessels and marine facilities who pose an oil spill risk to environmental sensitive sites within each GRA. Additionally, this action makes extensive nonsubstantive changes to existing text, including deleting unnecessary terms, consolidating definitions into one section, revising text for consistency and uniformity with existing Office regulations or the California Style Manual.

OAL approves this regulatory action pursuant to section 11349.3 of the Government Code. This regulatory action becomes effective on 1/1/2026.
