- **Special Salmon Closures: (CCR T-14, §27.75)**
 - Smith River mouth – closed year-round

 - Eel River mouth – closed in August and September only
- **North of Point Conception:** No more than two single-point, single-shank barbless hooks shall be used, and no more than one rod per angler when fishing for salmon or fishing from a boat with salmon on board (CCR T-14, §27.80(a)).
- **40°10' Line to Point Conception (CCR T-14, §27.80(a)):** When fishing with bait and angling by any means other than TROLLING¹, no more than two single-point, single-shank barbless CIRCLE HOOKS² shall be used. The distance between the two hooks must not exceed 5 inches when measured from the top of the eye of the top hook to the inner base of the curve of the lower hook and both hooks must be permanently tied in place (hard tied). **NOTE: These special gear restrictions apply to each angler fishing for salmon or fishing from any boat or floating device with salmon on board.**
 1. TROLLING is defined as angling from a boat or floating device that is making way by means of a source of power, other than drifting by means of the prevailing water current or weather conditions.
 2. A CIRCLE HOOK is defined as a hook with a generally circular shape and a point which turns inwards, pointing directly to the shank at a 90-degree angle.
- **Recovery of coded-wire tag from salmon head:** Any person in possession of a recreationally taken salmon with a missing adipose fin (the small, fleshy fin on the back of the fish between the back fin and tail) shall immediately relinquish the head of the salmon, upon request by an authorized agent or employee of the Department, to facilitate the recovery of any coded-wire tag (CCR T-14, §1.73).
