

## California Fish and Game Commission Distribution of Marine Protected Area Petitions for Commission 2026 Regional Meetings

*Italicized* marine protected area (MPA) names indicates repeated locations across petitions.

An asterisk (\*) indicates that the petition includes proposals affecting more than one region and, thus, will appear on multiple meeting agendas; each meeting will focus on the actions specific to that region.

Tribally led or co-led petition evaluations have not been released; the California Department of Fish and Wildlife will complete the evaluations following the April 14, 2026 Commission Tribal Committee meeting.
