

CALL FOR PRESENTATIONS

12th Biennial Oil Spill Response Technology Workshop

March 23–25, 2027 • Marathon Facility • Carson, California

The California Department of Fish and Wildlife — Office of Spill Prevention and Response (OSPR), together with industry co-hosts Chevron, Marathon, Shell, Phillips 66, Plains, and MSRC, invites experienced oil spill response professionals and response technology developers to present at the 12th Biennial Oil Spill Response Technology Workshop.

SHARE YOUR TECHNOLOGY. ADVANCE SPILL RESPONSE.

The Workshop brings together national and international responders and response technology specialists from industry; local, state, and federal agencies; NGOs; academia; and other organizations involved in oil spill preparedness, prevention, and response. We are seeking new, innovative, or improved technologies, tools, techniques, and field applications for oil spill response.

Presentations are encouraged in areas including:

- **Applied Response Technology** — Dispersants, surface washing agents, oil gelling/solidifying and herding agents, de-emulsifiers, bioremediants, and sorbents, and in-situ burning
- **Remote Sensing** — Aerial/submersible vehicles, remote cameras, sensors, and related technologies
- **Software & Hardware** — Field data collection applications, dashboards, Common Operating Picture, and other response-related data collection, management, and presentation technology
- **Mechanical Response Resources** — New and innovative boom, skimmers, decanting, vessels, equipment, and processes
- **Spill Prevention & Safety Technologies**
- **Non-Floating Oil Response** — Dedicated Session
- **Renewable Fuel Response** — Dedicated Session
- **Oiled Wildlife Response** — Tools, technologies, and techniques

DEMONSTRATE YOUR TECHNOLOGY

The Workshop welcomes field demonstrations as well as technical presentations. Demonstrations should be conducted on-site, but virtual options may be available.

INTERESTED IN PRESENTING?

Please email osprtechworkshops@wildlife.ca.gov with:

1. Your name, title, and affiliation
2. A brief paragraph/abstract describing your technology or presentation topic
3. Your preferred presentation format: In-person or virtual
4. Your interest in providing an on-site or virtual demonstration

Your preferred format may be changed later as planning progresses.

SHOWCASE INNOVATION. STRENGTHEN THE RESPONSE COMMUNITY.
