

## NEWPORT BEACH ARTIFICIAL REEF

**Center Coordinates**  
**Compass Bearing**  
**Year Constructed**  
**Materials Used**  
**Comments**

36° 16' 13" N x 117° 57' 49" W    **Depth** 72 ft. (MLLW)  
 267° (mag), 4.5 N miles from end of Newport Jetty  
 1979, Augmented 1981, 82 & 84. **Area** 8 acres (approx.)  
 10,675 tons concrete blocks, pilings and rubble  
 This reef can often be located by fathometer tracing of large  
 numbers of blacksmith over the piles. Sizable barred  
 sandbass numbers have been observed by divers.

**Notes**

Even young anglers find a challenge
