## Endangered Plant Protection on Jepson Prairie Preserve

Contract No. FG-9508

## Submitted to:

Ann Howald Endangered Plant Program Natural Heritage Division Department of Fish and Game

Submitted by:

Greg Elliott Principal Investigator The Nature Conservancy Jepson Prairie Preserve

July 15, 1991

Task 2: Jepson Prairie Preserve (Solano County) interpretive trail.

Objective: To increase public awareness of and protect vernal pool habitat containing populations of <u>Tuctoria</u> <u>mucronata</u>(E), <u>Neostapfia</u> <u>colusana</u>(E), <u>Fritillaria</u> <u>liliaceae</u>, <u>Downingia</u> <u>humilis</u>, and <u>Legenere</u> <u>limosa</u>. The Federally threatened Delta green ground beetle also occurs on this Preserve

Subtask 1:Replace and repair a half-mile section of fence(Deadline:along both sides of Cook Lane. (TNC contribution:July 15th)labor and \$400 of materials).

Status: The opportunity to have Cook Lane refenced at no cost (through a contract with the Jepson grazing lessee) allowed TNC to use the fencing for enclosure of a visitor picnic/interpretive area at the entrance to the Preserve (see Figures 1 & 2). The fenced enclosure will prevent sheep, which are integral to the grazing management of the Preserve, from entering the picnic area (see Figures 3 & 4). Interpretive signs were installed in a location where visitors will face a vista of Jepson Prairie and Olcott Lake (see Figures 5 & 6).

Subtask 2: (Deadline: July 15th)
Grade and gravel-fill a parking area. (TNC contribution: labor).

Status: The parking area has been completed (see Figures 7 & 8). An area in front of the picnic/interpretive area was graded and covered with gravel to provide parking for about 10 to 15 vehicles.

Subtask 3: Prepare two interpretive panels for kiosk. (TNC (Deadline: contribution: labor and \$400 of materials). Sept. 30th)

Status: Planning underway.

Subtask 4: (Deadline: July 15th) Post public control signs. (TNC contribution: labor).

We are requesting an extension of the July 15th deadline for this task, as the public control signs will be part of the interpretive kiosk and trail that will be located across from the visitor picnic area. This portion of the project is scheduled for completion by September 30th.

Subtask 5: Prepare interpretive trail guide. (TNC contribution: (Deadline: labor). Sept. 30th)

Status: Planning underway.
