Date: 9/10/98

Subject: North Fork Trinity River Adult Summer Steelhead Survey

On August 25, 1998 the North Fork Trinity River was surveyed for adult steelhead and spring chinook by downstream snorkeling. Fifteen divers counted adult fish in 24 miles of stream.

Reach	From	To	Reach Length	Steel	1/2lb	King	Jack	Surveyors
1	Grizzly Cr.	Rattlesnake Cr.	4	30	1	0	0	James/Garrison
2	Rattlesnake Cr.	China Creek	2.4	38	0	2	0	Taylor/Peak/LoGuidice
3	China Creek	Hobo Gulch	2.5	4	1	0	0	Aguilar/ Brown
4	Hobo Gulch	Raymond Flat	5.2	39	3	0	0	Kramer/Dawson/Reynolds
5	Raymond Flat	Waldorf Xing	3.2	23	3	1	0	Everest/Everest
6	Waldorf Xing	Bridge	6.8	3	4	4	0	McCaslin/Carrigen/Zmak
		Total	24.1	137	12	7	0	

Halfpounder steelhead were identified as fish between 14 and 18 inches in length. Jack chinook were fish less than 24 inches in length.

The California Department of Fish and Game (Bernard Aguilar and aid), National Marine Fisheries Service (Steve Kramer), and Trinity County Resource Conservation Service (Polly Taylor) assisted in the survey.
