

Hunter Creek, Del Norte Co.
(Field Note)

REF 90439

Tributary to: Klamath River

Date of survey: March 20, 1992

Purpose of survey: Spawning survey

Location: Habitat typed reach from station 85+00 upstream to
confluence of Kurwitz Creek

Method of survey: Visual observation

Surveyors: John Schwabe, Cynthia Verhey, Lee Howard

Observations: Observed a total of seven redds, all fresh, one live
steelhead 20+ inches, sex unknown. Observed coho young of the year
(YOY) at recent boulder work. Downstream of rock work, observed
YOY, species unknown, using side margin cover.

Air temperature was 60 F, and water temperature was 52 F. Weather
was partly cloudy. Flow was low and water visibility was good.
