

Cuneo Creek  
(Field Note)

*Bailey*  
*11*

REF 90521

Tributary to: Bull Creek thence South Fork Eel River

Date of Survey: Nov. 11, 1983

Location: T1S, R1E, Sec. 36

Method of Survey: Spotchecked with electrofisher.

Equipment Used: Mark IV type electrofisher

Surveyors: Carl Harral, Alan Kosaka and Linda Kuntz

Observations: A one-hundred foot section just above the confluence with the mainstem was sampled on the North Fork and Middle Fork Cuneo Creek to identify fishes present. The South Fork Cuneo Creek was too turbid to electrofish. Only a few of the fish present from each section were collected.

The following fish were collected and fork lengths measured:

North Fork SH/RT	Middle Fork SH/RT
10 cm	8 cm
8 cm	6 cm
6 cm	10 cm
7 cm	5 cm
8 cm	9 cm
California Roach	California Roach
8 cm	5 cm
6 cm	7 cm
