

Table 2-5. Reduction estimates of potential regulation controls applied to the recreational white seabass catch. Based primarily on 2000 recreational catch.

	Percent reduction	Estimated harvest	Management goal achieved
Close March 15-June 15	46	329,497	No
No full moon fishing (3/15 to 6/15)	43	408,290	No
Increased size limit	49	365,312	No
Reduce bag limit (2 fish only)*	4	687,640	No
Use of a Recreational Quota - if a quota was imposed the season would close in June.			Yes

* Used 1999 estimates for bag limit reduction; 2000 effort data not available.
