Dedication	3
Purpose and Overview	5
Table of Contents	9
Introduction and Historical Overview	19
California's Variable Ocean Environment	21
Climatic Processes, El Niño Events and Regime Shifts	22
El Niño/La Niña Processes	22
Decadal/Regime Scale Processes	23
Implications for Nearshore Ecosystems	24
Implications for the Offshore Ecosystem	26
El Niño - La Niña Fluctuations	27
Regime Scale Climatic Variations	27
Conclusions	28
References	28
The Status of Habitats and Water Quality in California's Coastal and Marine Environment	29
Importance of Healthy Waters and Habitats to Marine Life	29
Health of Coastal and Marine Water Quality and Habitats	29
Monitoring and Assessment Information	29
Data Limitations/Gaps	30
Sources of Impairment of Water Quality and Habitats	31
Point Source Discharges	31
Nonpoint Source Discharges	31
Spills	32
Oil Spills	32
Other Spills	32
Dredging and Disposal of Dredged Material	33
Invasive Species	34
Habitat Loss, Destruction and Alteration	34
Water Flow	35
Freshwater Discharges	35
Hydromodification	36
Recreational and Commercial Activities	36
Boating	36
Jet Skis (Motorized Personal Watercraft)	36
Fishing	37
Ecosystem-wide Implications	37
Regulatory Structure for Addressing Water Quality and Habitat Issues	38
Federal	
Clean Water Act	38
Permit Program	38
Nonpoint Pollution Program	38
Regulation of Discharges into Impaired Waters	38
Discharges under Federal Licenses or Permits	38
Dredge Disposal and Fill	38
Antidegradation	39
Ocean Dumping Act	39
The National Environmental Policy Act	39

Endangered Species Act	39
Marine Mammal Protection Act	40
National Marine Sanctuaries Act	40
The Coastal Zone Management Act	40
Magnuson-Stevens Fishery Conservation and Management Act	41
Oil Pollution Act of 1990	41
State	
California Environmental Quality Act	41
Porter-Cologne Water Quality Control Act	41
California Endangered Species Act	42
McAteer-Petris Act	42
California Coastal Act	42
Oil Spill Prevention and Response Act of 1990	42
Regional	42
CALFED	42
Monterey Bay National Marine Sanctuary Water Quality Protection Program	43
Local	
Implementation of CEQA and NEPA	43
Coordinated Resource Management Planning	43
Marine Protected Areas	43
Regulatory Gaps	44
Human Ecosystem Dimension	47
Human Benefits of the Marine Ecosystem	47
Factors Affecting Commercial and Recreational Fishery Activity	47
Commercial Fisheries Landings and Ex-vessel Value	48
Harvesting Sector	49
The Processing Sector	51
The Trade Sector	51
Sport and Subsistence Fisheries	52
Effort and Harvest	53
Recreational Fishery Expenditures	53
Additional Information on the Salmon and CPFV Sport Fisheries	53
References	55
Marine Law Enforcement	67
Introduction	67
Resources	67
Personnel	67
Patrol Boats	67
Teams	68
Partnerships	68
Fisheries-Specific Enforcement Efforts	68
Groundfish	68
Nearshore Fish	68
Salmon	69
Halibut	69
Striped Bass	69
Pacific Herring	69

Coastal Pelagic Species	70	Purple Sea Urchin	105
Sardine/Anchovy/Mackerel	70	History of the Fishery	105
Squid	70	Status of Biological Knowledge	105
Abalone	70	Status of the Population	105
