Acknowledgement:

The authors are grateful to Carl Lian and other NMFS research personnel for providing survey data to us in summary form. We would like to thank Christine Broniak, Chris Carter, and Terry Tillman for articulating the data requirements of their respective state agencies, and for their helpful comments on an earlier draft of this report. This report was guided by project managers Mike Dorman (ERT) and Herb Gillette (NMFS). Carmen King and Chad St. John provided capable research assistance.
