NOTIFICATION OF LAKE OR STREAMBED ALTERATION

ATTACHMENT B

Additional Information for Projects Included in Timber Harvesting Plans

If the project described in the Notification of Lake or Streambed Alteration form (Form FG 2023) is part of a Timber Harvesting Plan (THP), the applicant must also submit the following information on one or more separate pages with the notification form.

I. PROJECT NAME AND THP NUMBER

II. PROJECT LOCATION

- A. Encroachment Map. A single map or diagram clearly delineating all of the following:
 - 1. Lake and stream encroachments identified by number or other appropriate label
 - 2. Roads identified by a number or other appropriate label
 - 3. Watercourse classifications (i.e., Class I, II, or III)
 - 4. Access from a named public road
 - 5. North arrow and map scale

III. PROJECT DESCRIPTION

- A. *Multiple Encroachments*. If multiple lake or stream encroachments are proposed, include a table describes the following for each encroachment:
 - 1. Encroachment type (e.g., permanent culvert, temporary bridge, rock revetment)
 - 2. Watercourse classification
 - 3. Structure (i.e., culvert, bridge, rock revetment) size
 - 4. Map reference number
- B. Conditions at Encroachment(s). Describe any torrent, debris, or landslide conditions at each encroachment.
- C. Work Period(s). If temporary crossings are proposed, specify dates and conditions requiring temporary crossing removal.
- Culverts. If a culvert crossing is proposed, provide calculations or other data used to size culverts.
- E. Bridges. If a bridge is proposed, include the following:
 - Indicate if the abutments or road approaches will encroach into the floodplain or stream channel
 - 2. Provide the calculations or data used to determine bridge height and flow capacity
 - 3. Describe the type of abutments and scour protections with dimensions
 - 4. Provide any engineering reports, plans, or other related documentation

- F. Water Diversion or Drafting. If water will be present, and will be drafted or diverted around the work site, specify the following.
 - 1. Volume, rate, and timing of water to be diverted or drafted
 - 2. Method of diversion or drafting
 - 3. Copy of applicable State Water Resources Control Board water right application, permit, or license

If any of the following conditions apply, contact the appropriate Department regional office to obtain a "Water Diversion Questionnaire" (Attachment C) and enclose a completed copy of the questionnaire with the notification:

- 1. Water will be used for purposes other than, or in addition to, road maintenance or dust control
- 2. Water drafting or diversion will continue after the THP expires
- 3. Water storage reservoirs, ponds, or other water storage facilities will be used after the THP expires as part of a subsequent land development or use phase
