

9890 ACP Key Contact Information

Section 9890 provides contact information, in tabular format, for scientific professionals experienced in the ACP region. Tables are organized in alphabetical order (by last name) listing such critical information as phone number(s), addresses, affiliated organization, etc. For each contact, information is listed on the first page, with additional information on the following page. For example, pages 1 and 2 have identical individuals listed, but provide different information on each page. Therefore, pages 1 and 2 have identical individuals, pages 3 and 4 have corresponding individuals, and so on.

Last Name	First Name	Title	Organization	Address	City	ST	Zip	Country	Phone #	Phone #2	Fax
Adams	Josh		US Geological Survey					USA	(831) 771-4422		
Ainsley, Ph.D.	David G.		H.T. Harvey & Associates Ecological Consultant	906 Elizabeth Street, P.O.Box 1180 700 Heinz Avenue, Suite 300	Alviso	CA	95002	USA	4082631814		408-263-3823
Albert III	William M.		CA Environmental Protection Agency		Berkeley	CA	94710-2737	USA	5105403910		510540-3927

9890.1 Chaffee Amendment

Summary

Authorizes the deviation from response plan if the determined alternate measures would provide for a more expeditious response.

Section 1144 of the Coast Guard Authorization Act of 1996, otherwise known as the "Chaffee Amendment," amended the FWPCA regarding the use of spill response plans.

Section 1144 states that the "owner or operator may deviate from the applicable response plan if the President or the Federal On-scene Coordinator determines that deviation from the response plan would provide for a more expeditious or effective response to the spill or mitigation of its environmental effects."

The Coast Guard interprets this amendment as applicable to the use of contracted resources, qualified individuals, and other "significant" deviations from the plan.

The Coast Guard intends to give precedence to the Incident Action Plan as developed by a Unified Command during an actual response.

Regulatory Information

Coast Guard Act of 1996: Chaffee Amendment. Section 311(c)(3)(B) of the Federal Water Pollution Control Act (33 USC 1321(c)(3)(B)) is amended by striking "or as directed by the President" and inserting "except that the owner or operator may deviate from the applicable response plan if the President or the Federal On-Scene Coordinator determines that deviation from the response plan would provide for a more expeditious or effective response to the spill or mitigation of its environmental effects."

Application

The following is a compiled list of local scientists, both inside and outside the Federal Government service, with expertise in the environmental effects of spills of the type of oil typically transported in the area, who may be contacted to provide information or, where appropriate, participate in meetings of the scientific support team convened in response to a spill, and describe the procedures to be followed for obtaining an expedited decision regarding the use of dispersants.

To obtain scientific information during an event the first contact should be the NOAA Scientific Support Coordinator. The SSC will insure that the necessary scientists are contacted.
