WORKSHOP PARTICIPANTS	ii
ACKNOWLEDGEMENTS	ii
EXECUTIVE SUMMARY	1
1. BACKGROUND FOR WORKSHOP	3
1.1 INTERSECTION BETWEEN MARINE LIFE MANAGEMENT ACT AND MARINE LIFE PROTECTION ACT	4
1.2 MARINE LIFE PROTECTION ACT PLANNING PROCESS AND MARINE PROTECTED AREAS DESIGN GUIDELINES	4
1.3 NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION MARINE PROTECTED AREA SCIENCE INTEGRATION WORKING GROUP.....	5
2. FEATURED WORKSHOP FISHERIES	5
2.1. BROWN ROCKFISH	6
2.2. CABEZON.....	6
2.3 CALIFORNIA SPINY LOBSTER.....	7
2.3 ABALONE	8
3. INTRODUCTION TO WORKSHOP SESSIONS	9
3.1. SESSION 1: WHAT ARE THE EXPECTED EFFECTS OF THE NETWORK OF MPAs ALONG THE CALIFORNIA COAST ON CALIFORNIA'S MARINE FISHERIES? WHAT ARE THE BEST WAYS TO MONITOR FOR THESE EFFECTS?	9
3.1.1. Rationale	9
3.1.2. Prelude to Session 1	9
3.1.3. Overview.....	10
3.1.4. Key Discussion Points.....	11
3.2. SESSION 2: DO OUR MANAGEMENT STRATEGIES NEED TO CHANGE IN RESPONSE TO A NETWORK OF MPAs? HOW SHOULD THESE STRATEGIES CHANGE?.....	11
3.2.1. Rationale	11
3.2.2. Overview.....	11
3.2.3. Key Discussion Points.....	13
3.2.4. General Fisheries	13
3.2.5. Cabezon	14
3.2.6. California Spiny Lobster	15
3.2.7. Brown Rockfish.....	15
3.2.8. Red Abalone.....	16
3.3. SESSION 3: CAN WE INCORPORATE THE PRESENCE OF A NETWORK OF MPAs INTO STOCK EVALUATION, DESIGNATION OF HARVEST CONTROL RULES, AND OTHER PROCESSES RELATED TO DEFINING FISHERY YIELDS? WHEN SHOULD WE DO SO?	16
3.3.1. Rationale	16
3.3.2. Prelude to Session 3	17
3.3.3. Overview.....	17
3.3.4. Key Discussion Points.....	18
4. NEXT STEPS	18
4.1.1 Necessity for More Essential Fishery Information.....	18
4.1.2. Usefulness of MPA Baseline Survey Data	18
4.1.3 Necessity for More Focused Monitoring Surveys.....	19
4.1.4 Potential Management Actions.....	19
4.2 FINAL CONSIDERATIONS	19
5. SESSION TOPIC TABLES	20

6. APPENDICES

- A: Intersection between the Marine Life Management Act and Marine Life Protection Act
- B: Overview of the Marine Life Protection Act Planning Process and Marine Protected Areas Design Guidelines
- C: A Brief Overview of the NOAA MPA Science Integration Working Group
- D: Brown Rockfish
- E: Cabezon Fishery
- F: California Spiny Lobster
- G: California's Abalones
- H: Informing Fisheries Management through MPA Monitoring
- I: How Can Information from MPAs Be Used to Assess and Manage Fisheries? Density ratios and other ideas
