Re: Attached draft data summaries to support meeting discussion
Date: January 3, 2008

Attached to this memo are several draft data summaries from various sources to support the January 8, 2008 SAT meeting discussions of the methods for evaluating draft marine protected area (MPA) proposals. The attached data summaries are intended to support the discussion of 1) salmon fishing and the level of protection for this activity, 2) evaluation of shorefishing activities, and 3) evaluation of crab fishing activities. Please review these documents prior to the meeting and be prepared to discuss these topics.

The following documents are attached:

Salmon fishing summaries

1. Draft Summary of California Recreational Fisheries Survey – Commercial Passenger Fishing Vessel Data
2. Draft Summary of California Department of Fish and Game –Commercial Passenger Fishing Vessel Logbook Data
3. Landed Rockfish Bycatch in the Commercial Salmon Fishery

Shorefishing

1. Fitzgerald Marine Reserve Finfish Fishing Records 1973 to 2003
2. Data Summary Tables from the California Recreational Fisheries Surveys (CRFS) for Shore Based Fishing Modes

Crab

1. Potential Impacts of Sex- and Size-Selective Harvesting in Crab Populations
