FEB 26 2016

Distribution

As mandated by the Oil Pollution Act of 1990 and the National Contingency Plan (40CFR300), the 2014 revision of the Los Angeles-Long Beach (LA-LB) Area Contingency Plan (ACP) has been completed and is effective 01 May 2015. This marks the ninth revision of this plan and supersedes the 2011 LA-LB ACP. This edition remains in effect until superseded.

The 2014 LA-LB ACP was revised through the efforts of the U.S. Coast Guard, California Department of Fish and Wildlife Office of Spill Prevention and Response (OSPR) and the LA-LB Area Committee membership.

The public and all marine environmental protection stakeholders can download the 2014 LA-LB ACP from the OSPR website at www.wildlife.ca.gov/ospr. Publication via the internet allows the Area Committee to provide the response community with the most up-to-date version of the ACP. While the ACP is revised triennially, the ACP may be updated with new information at any time by the Area Committee. Any updates to this document shall be referred to as "interim updates" and will be made available on the OSPR website.

Comments and recommendations regarding this plan are welcome and should be submitted through the LA-LB Area Committee.

Sincerely,

J. F. Williams
Captain, U.S. Coast Guard
Federal On-Scene Coordinator
