MARKET SQUID VESSEL PERMIT TRANSFER PROVISIONS

Authority – Transferable Market Squid Vessel Permits
California Code of Regulations (CCR), Title 14, Section 149.1, subdivision (o), allows the owner of a commercial fishing vessel with a valid Transferable Market Squid Vessel Permit (TMSVP), to transfer the permit to a replacement vessel. Under Section 149.1(l), the owner of a commercial fishing vessel with a valid TMSVP, may transfer the title of the vessel to another entity. Requests for transfer or change of ownership of a TMSVP are subject to the following conditions:

Classification of Permits and Permit Authorization
A Market Squid Vessel Permit authorizes the use of round haul gear, including purse seine, drum seine and lampara nets for commercial harvest. Use of brail gear, including dip and scoop nets, is also authorized. Lights may also be used as specified in regulation to aggregate squid for purposes of commercial harvest. No other gear is authorized under this permit to take or assist in the taking of market squid for commercial purposes. Market Squid Vessel Permits are designated as either transferable or non-transferable.

Gross Tonnage Endorsement (GTE) Authority
The GTE remains in effect for the lifetime of each permit, regardless of the gross tonnage to which it was transferred. CCR, Title 14, Section 149.1(n) requires each Market Squid Vessel Permit be endorsed with the gross tonnage at the time of initial permit issuance, regardless of the gross tonnage of a vessel to which it is transferred. Vessel owners must provide a copy of the vessel’s Federal Coastal Pelagic Species Permit (FCPSP) to document the gross tonnage. (CCR, Title 14, Section 149.1(n)(2)).

The owner of the replacement vessel must also provide gross tonnage information for the replacement vessel as described above. (CCR, Title 14, Section 149.1(n)).

If the owner of the replacement vessel does not hold a FCPSP for the vessel, the gross tonnage will be determined by multiplying the length (L), breadth (B), and depth (D) of the vessel by 0.0067. Records of length, breadth, and depth used for determining gross tonnage will be those recorded on the vessel’s United States Coast Guard (USCG) Certificate of Documentation. (CCR, Title 14, Section 149.1(n)(1)(B)).

In addition, Fish and Game Code (FGC), Section 7857(a), requires vessel owners to possess a valid California Commercial Fishing License before a Market Squid Vessel Permit can be issued.

NOTE: If the owner of the replacement vessel is applying for the first time for a commercial fishing license, they must provide valid identification as defined in CCR, Title 14, Section 700.4. (See page 8, Section 700.4 Automated License Data System).

In cases where two or more permits are transferred to a replacement vessel pursuant to guidelines in subsection (o), the replacement vessel shall be issued a transferable permit which reflects a gross tonnage endorsement (GTE) which is recorded as either the sum of the gross tonnage endorsements from the original vessels, or the gross
tonnage of the replacement vessel, whichever of the two values is less. (CCR, Title 14, Section 149.1(n)(4)).

Title 14, California Code of Regulations Excerpts

§149.1 Market Squid Fishery Restricted Access Program.
(k) Dissolution of Partnership or Corporation. If a transferable Market Squid Vessel Permit, Market Squid Brail Permit, or Market Squid Light Boat Permit is issued for a vessel that is owned by a bona fide partnership or corporation which becomes dissolved, the partnership or corporation shall notify the department of the name of the partner or shareholder who is the successor permitholder and the department shall
reissue the permit to that partner or shareholder. Change of vessel ownership provisions defined in subsection (l) and transfer fees in subsection (i)(2) apply.

(l) Change of Vessel Ownership.
(1) If a transferable Market Squid Vessel Permit, Market Squid Brail Permit, or Market Squid Light Boat Permit is issued for a vessel that is owned by an individual or by a bona fide partnership or corporation, and the individual, bona fide partnership, or corporation transfers the title of ownership of the vessel to another entity, the original entity to which the permit is issued must notify the department of the change in ownership, and submit a non-refundable transfer fee as specified in Section 705.
(2) Upon payment of fees, and surrender to the department of the original permit or permits, the department shall issue the applicable permit to the new owner of the vessel that is valid for the remainder of the fishing season. Gross tonnage endorsement provisions defined in subsection (n) below shall apply.
(3) Non-Transferable Market Squid Vessel Permits, Non-Transferable Market Squid Brail Permits and Non-Transferable Market Squid Light Boat Permits which are issued to individuals shall not be transferred to a new owner. Sale or transfer of ownership of a vessel that is authorized to fish under a non-transferable market squid permit shall render the permit null and void.

(n) Gross Tonnage Endorsement. Each Market Squid Vessel Permit or Market Squid Brail Permit shall be endorsed with the gross tonnage at the time of initial issuance. Any vessel owner transferring a Market Squid Vessel Permit or Market Squid Brail Permit shall also provide gross tonnage information for the replacement vessel as described below.
(1) The gross tonnage shall be determined as follows:
(A) If the owner of the vessel holds a Federal Coastal Pelagic Species Permit issued by the National Marine Fisheries Service for that vessel, the owner of the vessel shall submit a copy of the vessel owner's current valid Federal Coastal Pelagic Species Permit with the vessel's endorsed gross tonnage.
(B) If the owner of the vessel does not hold a Federal Coastal Pelagic Species Permit for the vessel, the gross tonnage will be determined by multiplying the length (L), breadth (B), and depth (D) of the vessel by 0.0067. Records of length, breadth, and depth used for determining gross tonnage will be those recorded on the vessel's United States Coast Guard documentation paper.
(2) The gross tonnage endorsement will remain in effect for the lifetime of each permit, regardless of the gross tonnage of a vessel to which it was transferred.
(3) In cases where a permit is transferred to a vessel with a smaller gross tonnage, the original gross tonnage endorsement will remain, and excess gross tonnage cannot be split out from the original permit endorsement for any purpose.
(4) In cases where two or more permits are transferred to a replacement vessel pursuant to guidelines in subsection (o), the replacement vessel shall be issued a transferable permit which reflects a gross tonnage endorsement which is recorded as either the sum of the gross tonnage endorsements from the original vessels, or the gross tonnage of the replacement vessel, whichever of the two values is less.

(o) Transfer of Permits to Replacement Vessels.
(1) Conditions for permit transferability as defined in this subsection shall provide the mechanism for achieving the capacity goals defined in subsection (m) of this Section over time.
(2) Definitions of Comparable Capacity.
(A) For purposes of permit transferability described in this subsection, two vessels are of comparable capacity if the gross tonnage, as defined in subsection (n) of this Section, of the replacement vessel is not in excess of ten percent greater than the gross tonnage
of the originally permitted vessel [the replacement vessel's gross tonnage must be less than (the gross tonnage of the original vessel) plus (0.1 multiplied by the gross tonnage of the original vessel)].

(B) A replacement vessel shall be considered of comparable capacity in cases of permit transfers where the gross tonnage of the original vessel exceeds the gross tonnage of the replacement vessel by any amount. Gross tonnage endorsement provisions for the replacement vessel defined in subsection (n) shall apply.

(3) After August 31, 2005 the following conditions for transferability of permits to replacement vessels will be in effect for permits in each class as described:

(A) The owner of a vessel with a valid Transferable Market Squid Vessel Permit may transfer the permit to another person who is the owner of a replacement commercial fishing vessel of comparable capacity as defined in this subsection.

(B) If transfer is sought of a Transferable Market Squid Vessel Permit for a replacement commercial fishing vessel which is not of comparable capacity as defined in this subsection, one additional valid Transferable Market Squid Vessel Permit shall be transferred and surrendered to the department at the time of the transfer. Market Squid Vessel Permit transfers are not authorized in cases where the gross tonnage of the replacement vessel is not of comparable capacity to the sum of the gross tonnages of the two original vessels as defined above.

(C) A Transferable Market Squid Brail Permit issued to an individual, partnership or corporation may be transferred to another entity who is the owner of a replacement commercial fishing vessel of comparable capacity as defined in this subsection.

(D) A Transferable Market Squid Light Boat Permit issued to an individual, partnership or corporation may be transferred to another entity who is the owner of a replacement commercial fishing vessel.

(E) In the event of death of the holder of a Transferable Market Squid Vessel Permit, Transferable Market Squid Brail Permit, or a Transferable Market Squid Light Boat Permit, the estate must apply for transfer of the permit to another entity within one year of the permitholder's death.

(F) A Non-Transferable Market Squid Vessel Permit or a Non-Transferable Market Squid Brail Permit issued to an individual may not be transferred to another entity, but in the event the permitted vessel is lost, stolen or destroyed, or has suffered a major mechanical breakdown, the permit may be placed on a replacement vessel of comparable capacity as defined in subsection (m). A Non-Transferable Market Squid Light Boat Permit issued to an individual may not be transferred to another entity, but in the event the permitted vessel is lost, stolen or destroyed, or has suffered a major mechanical breakdown, the permit may be placed on a replacement vessel. A notarized, written request for transfer must be submitted, along with proof that the permitted vessel is lost, stolen, or destroyed in the form of a copy of the report filed with the United States Coast Guard or any other law enforcement agency or fire department investigating the loss. In the case of mechanical breakdown, the request shall include an estimate of the costs to repair the vessel from a marine surveyor or boat repair yard. The department shall not issue a permit for a replacement vessel pursuant to this subsection if the permitted vessel was reported lost, stolen, destroyed, or damaged for fraudulent purposes.

(4) The applicant for transfer must be the owner of a replacement commercial fishing vessel that has been registered with the department pursuant to Fish and Game Code Section 7881 at the time of application.

(5) A written request for transfer of a market squid permit of any class shall be submitted to the department by the owner of the replacement vessel in the form of a notarized letter, accompanied by the nonrefundable transfer fee and shall include a
copy of the permit or permits which are being considered for transfer, current proof of
vessel ownership, and gross tonnage information as described in subsection (n), if
applicable.
(6) Any market squid permit holder intending to transfer a permit shall submit a
notarized letter to the department setting forth the conditions of the sale, and shall
specify that the terms of the transfer as documented by the replacement vessel owner
are valid and true.
(7) Upon determining that the applicant is qualified to transfer the permit to a
replacement vessel, payment of all fees, and surrender to the department of the original
permit or permits, the department shall issue the applicable permit to the owner of the
replacement vessel that is valid for the remainder of the fishing season. Gross tonnage
endorsement provisions defined in subsection (n) above shall apply.
(8) At the time the permit transfer is complete, vessels previously authorized to fish
under conditions of a surrendered permit shall not take or attract squid for commercial
purposes unless otherwise authorized in regulation or statute.
(p) Transfer Appeals. Any applicant who is denied transfer of a Market Squid Vessel
Permit, Market Squid Brail Permit, or a Market Squid Light Boat Permit may appeal the
denial to the department in writing describing the basis for the appeal. The appeal shall
be received or, if mailed, postmarked within 60 days of the date of the department’s
denial. The appeal shall be reviewed and decided by the department. The decision of
the department may be appealed in writing to the commission within 60 days of the date
of the department’s written decision.
