

CDFW Climate College

Lecture #7

Title: Energy-Climate-Human Nexus: Climate Action co-benefits for Natural Resource Conservation
Speaker: Ashley Conrad-Saydah, Assistant Secretary for Climate Policy, Cal EPA
Date: March 12, 2013 (Tuesday)
Time: 1:30 – 2:30PM
Location: DFG headquarters in Sacramento, Resources Agency Auditorium
WebEx: Lecture also available to view via WebEx. We encourage DFG staff participating remotely to watch the lectures together by reserving a conference room with DSL. The powerpoint presentation will be posted in advance to minimize interruption for remote users due to WebEx or bandwidth complications. Because of a limit to the number of WebEx participants, we encourage those in the Sacramento area to attend in person.

Registration for Lecture #7

[CDFW STAFF CLICK HERE TO REGISTER](#)

ALL OTHER PARTICIPANTS: If you are not a DFG staff member please email Registrar@wildlife.ca.gov with your name, email address, organization, and whether or not you intend to participate in-person or via WebEx.

*Note: Please register at least two days prior to the lecture. If you would like to be registered for ALL classes at once, please submit a request to Registrar@wildlife.ca.gov.

Speaker Biography

A native New Yorker, Ashley Conrad-Saydah moved to California in 2001 after studying the impacts of the late 90s El Nino Southern Oscillation events on local marine mammal populations. She managed Careers in Science at the California Academy of Sciences, a program to introduce youth from disadvantaged communities to academic and research opportunities in the natural sciences before heading to UCSB for a masters in environmental science and management at the Bren School. Following graduate school, Ashley accepted a Presidential Management Fellowship with the Bureau of Land Management – California as the state's renewable energy program manager. Recognizing a desire to work on policies that moved government and people towards more climate-friendly behaviors, Ashley became CalEPA's Assistant Secretary for climate policy last May.
