

## 2 COMMENTS AND RESPONSES TO COMMENTS ON THE DRAFT EIR

CBDA received several comment letters on the Draft EIR during the public comment period, and several individuals spoke at the July 25, 2005, public comment meeting that was held at the Hamilton City Fire Department. The following table lists the names of those providing comments and the dates of the letters/comments. Each letter and individual comment has been assigned a letter/number designation for cross-referencing. The comments and questions received on the Draft EIR and on the project, and the responses to the environmental issues raised, follow the table. Summaries of verbal comments received at the public meeting and responses to those comments are presented toward the end of this chapter. A letter from the State Clearinghouse is included at the end of this chapter acknowledging that CBDA has complied with the State Clearinghouse review requirements for draft environmental documents.

<b>Comments Received on the Draft EIR</b>			
Letter/Meeting	Commenter	Date of Letter or Comment	Comment Number
<b>Letter Comments</b>
