

**California Department of Fish and Wildlife
Surface Survey Datasheet**

Waterbody:	County:	
Location	GPS (decimal degrees WSG 84):	
Description:		
Date:	Collector:	
Number of Linear Meters:		
Boat Ramp Bottom (30 m at marina, 60 m at ramp only) _____	Shoreline (30 m at marina, 60 m at ramp only) _____	
Dock (60 m) _____	Concrete Structure (30 m) _____	
Mooring Line (60 m) _____	Logs/Woody Debris (30 m) _____	
Anchor/Dock Cable (30 m) _____	Other _____	
% of Dock/Marina/Boat Ramp Searched _____		
Quagga/Zebra Mussels Present? Y / N	Specimens Collected? Y / N	
If mussels present, complete this section for up to 3 mussel locations		
1. Approximate Number (circle one) 1-10 10-100 >100	2. Approximate Number (circle one) 1-10 10-100 >100	3. Approximate Number (circle one) 1-10 10-100 >100
Substrate Type: _____	Substrate Type: _____	Substrate Type: _____
Draw a map showing where the mussels were observed and note any landmarks that will aid in locating them, and take a photograph to include with the datasheet		
Corbicula Clams Present? Y / N	Snails Present? Y / N	Other Mussel/Clam Species Present? Y / N
Specimens Collected? Y / N		
Comments: _____
