

Final Selection Panel Review

0046

COW CREEK WATERSHED FISH PASSAGE BARRIER AND HABITAT
EVALUATION

Western Shasta Resource Conservation District

Applicant amount requested: \$472,229

Fund This Amount: \$0

The Panel finds that this project is not without value. The work being proposed is similar to that in a standard watershed assessment. The link to agriculture exists in that agriculture occurs in the watershed. The panel finds, however, this is not a strong nexus to the goal of this PSP. The Panel does not recommend this proposal for funding, but does encourage the proponent to continue to seek funding for this type of project through other measures.
