Re: ERP Monitoring PSP--Sacramento River Riparian Monitoring and Assessment Project

Dear Dan:

This letter is to confirm that the Sacramento River Conservation Area Forum Board has taken action to participate in the California State University, Chico, ERP Monitoring proposal submitted in November.

While the SRCAF staff had participated in the development of the PSP, at the time of the submittal date for the ERP Monitoring PSP on November 19, the SRCAF Board had not had an opportunity to review the CSU proposal. At our December TAC and Board meetings, the respective groups received a presentation by Project Managers Kristin Carter and David Woods and discussed the proposal. The TAC recommended, and the Board supported, the recommendation for the SRCAF to participate as outlined in the project. The SRCAF supports the goal of this proposal to evaluate whether the habitat and populations of certain endangered and other at-risk species are recovering and if the ecological processes along the Sacramento River are being rehabilitated, protected and restored.

The Sacramento River Conservation Area Forum also looks forward to working with other proponents of related monitoring projects and will review and comment on those proposals during your comment period. Please keep us informed of your timeline for comments so that we can accommodate those that have not been before our group.

Thank you, and please contact me if the Sacramento River Conservation Area Forum can be of any assistance.

Burt Bundy, Manager

Tom Griggs,
River Partners
Re: CALFED Monitoring PSP

Dear Mr. Griggs:

The Sacramento River Conservation Area Forum welcomes the opportunity to comment regarding your CALFED Monitoring PSP that recently came before our organization. The project involves a Subsurface Water Quality monitoring activity between Sacramento River Miles 167 and 240 in Butte, Glenn, and Tehama Counties. This project is listed as Project # 54 in the "Project Tracker" system on our website at: www.sacramentoriver.ca.gov. Please keep this project updated as it progresses.

On February 1st, 2005, Daniel Efseaff presented this project to our Technical Advisory Committee for review and comment. The project was determined to be consistent with the principles and guidelines of the SRCA Forum Handbook and was forwarded to the SRCAF Board of Directors with that recommendation.

On March 17, 2005, the project was presented to the SRCA Forum Board of Directors and was found to be consistent with the principles and guidelines of the SRCA Forum Handbook with no objections noted at this time.

We appreciate the effort your organization has made in bringing these projects to the Forum and your recognition of the value of the principles and guidelines of the Handbook. We look forward to your continued coordination with SRCAF and the local contacts on this project as well as any future project proposals.

Sincerely,

Burt Bundy, Manager
SRCA Forum

Ken Roby,
Lassen National Forest
Re: CALFED Monitoring PSP

Dear Mr. Roby,

The Sacramento River Conservation Area Forum welcomes the opportunity to comment regarding your CALFED Monitoring PSP that recently came before our organization. The project involves Watershed Improvement monitoring activity on Deer, Mill, Antelope, and Battle Creeks, tributaries between Sacramento River Miles 220 and 270 in Shasta and Tehama Counties. This project is listed as Project #53 in the "Project Tracker" system on our website at: www.sacramentoriver.ca.gov. Please keep this project updated as it progresses.

On March 1st, 2005, you presented this project to our Technical Advisory Committee for review and comment. The project was determined to be consistent with the principles and guidelines of the SRCA Forum Handbook and was forwarded to the SRCAF Board of Directors with that recommendation.

On March 17, 2005, the project was presented to the SRCA Forum Board of Directors and was found to be consistent with the principles and guidelines of the SRCA Forum Handbook with no objections noted at this time.
