

KEEP ME WILD™

Deer, mountain lions and other wildlife may be your neighbors here.

- Never intentionally feed deer
- Landscape with deer-resistant plants (contact your nursery for ideas)
- Enclose gardens with eight-foot fencing
- Pick up fallen tree fruit
- Install motion-sensitive lighting around the house and garden
- Consider using commercially prepared deer repellents (available at garden supply stores)

Feeding deer is dead wrong. It's also against the law.

Allowing deer access to your garden and landscaping, or intentionally feeding deer, can be deadly. Wild animals naturally fear people, keep a distance, and will not bother you, so long as they remain truly wild. But if they become accustomed to humans, their natural ways are ruined. Their normal wildness and fear of humans is lost. That's when conflicts occur.

Keep them wild.

If in doubt about what to do, ask your local Fish and Game warden, park ranger, or law enforcement officer. Or visit our website:
