What are Marine Protected Areas?
Marine protected areas (MPAs) are marine or estuarine waters set aside primarily to protect or conserve marine life and its associated habitat. MPAs have varying levels of protection and allowed activities, with special regulations in addition to general fishing regulations.

Types of MPAs
California uses three main MPA classifications: State Marine Reserve (SMR), State Marine Conservation Area (SMCA) and State Marine Park (SMP). The Northern California region also includes a State Marine Recreational Management Area (SMRMA) and special closures.

Northern California MPAs
Major revisions and additions to Northern California MPAs went into effect on December 19, 2012. The region’s 19 MPAs, one SMRMA and seven special closures now encompass approximately 137 square miles (13 percent) of state waters in the northern California region. Of those about 51 square miles are designated as “no-take” SMRs. Northern California MPAs are part of a network of MPAs that extends all along the California coastline.

Fishing may be restricted, but what other activities are permitted in an MPA?
Unless specifically prohibited, non-consumptive activities such as diving, surfing, swimming, and boating are allowed within MPAs, as long as take restrictions are followed. General fishing regulations may be found online at wildlife.ca.gov/Ocean-Sport-Regs. It’s a good idea to review the regulations before visiting an MPA.

For more information, visit wildlife.ca.gov/MPAs, email AskMarine@wildlife.ca.gov, or visit one of the following northern California CDFW offices:

Eureka
619 2nd St.

Fort Bragg
32330 N. Harbor Dr.

In 1999, California’s Marine Life Protection Act was passed into law with a clear mandate: to re-evaluate all existing marine protected areas (MPAs) and potentially design new MPAs with input from a broad array of stakeholders. The California Department of Fish and Wildlife (CDFW) was integral to this effort. The MPAs in this brochure were designed, in part, to:

• Protect and sustain marine life, habitats and ecosystems
• Provide opportunities to learn from and enjoy marine areas subject to reduced human disturbance

For more information, visit the California Marine Protected Area website at wildlife.ca.gov/MPAs.
