**General Commercial Regulations**

- **All salmon except coho; all commercial salmon must be landed in California**
- **Single point, single shank barbless hooks are required**
- **No more than 6 lines are allowed per vessel**
- **Compliance with minimum size or other special restrictions:** All salmon on board a vessel must meet the minimum size and other special requirements for the area being fished and the area in which they are landed if that area is open or has been closed less than 96 hours. Salmon may be landed in an area that is closed more than 96 hours only if they meet the minimum size and other special requirements for the area in which they were caught AND it is not otherwise prohibited in the regulations.
- **Transit through closed area with salmon on board:** It is unlawful for a vessel to have troll gear in the water while transiting any area closed to salmon fishing while possessing salmon.
- **Barbless circle hooks<sup>1</sup> required when fishing with bait and fishing by any means other than trolling<sup>2</sup>**
  1. A **CIRCLE HOOK** is defined as a hook with a generally circular shape and a point which turns inwards, pointing directly to the shank at a 90-degree angle.
  2. **TROLLING** is defined as angling from a boat or floating device that is making way by means of a source of power, other than drifting by means of the prevailing water current or weather conditions.
