

# Fish Hatchery and Stocking Program

The California Department of Fish and Game (CDFG) Fish Hatchery and Stocking Program (the Program) has been providing recreational fishing opportunities to anglers throughout the State for more than 100 years. The Program is responsible for stocking fish, including salmon and trout, in lakes and rivers throughout California.

The CDFG, and the U.S. Fish and Wildlife Service (FWS) who provides funding to the Program, are preparing a joint Environmental Impact Report/Environmental Impact Statement (EIR/S) to evaluate the potential effects the Program has on aquatic resources and the environment.

CDFG and FWS will hold two public scoping meetings to seek input from all interested parties regarding the scope of the analysis to be considered in the EIR/S, and possible changes to the Program in the future. All public input will be considered when preparing the alternatives and analysis in the EIR/S.

To learn more about the Program, or to view the Notice of Intent/Notice of Preparation and the Initial Study, please visit [www.dfg.ca.gov](http://www.dfg.ca.gov) and select the "Public notices" icon in the "news" column. If you have questions or comments regarding the EIR/S scope, please e-mail them to [dfghatcheryeir@dfg.ca.gov](mailto:dfghatcheryeir@dfg.ca.gov).

You can also mail your comments to Mr. Jim Starr, California Department of Fish and Game, 830 S Street, Sacramento, CA 95811. Comments must be postmarked by October 1, 2008.

## Public Scoping Meetings

### ► Sacramento, CA

**Place:** Tsakopoulos Library Galleria, Main Hall
