

Annual Age-0 White Sturgeon Abundance Index From Collection of Age-0 & Age-1 Fish by Bay Study Otter Trawl, 1980-2015

Notes: (1) The 2015 index is preliminary. (2) Indices from 1980-1986 may be biased due to release of fish from hatcheries. For example, approximately 200,000 fingerling-sized fish were released into the Sacramento River by UC Davis in 1982.
