Dependent Vesting FAQs

What is dependent health vesting?

Dependent health vesting provides new employees a reduced employer health benefits contribution toward dependent coverage during their first 12 or 24 months of service.

New employees in BUs 1, 3, 4, 11, 14, 15, 17, 20, and 21, not previously eligible for health benefits under State civil service, receive:

- 75 percent of the employer contribution for dependent health coverage during the first 12 months of service.
- After completing 12 months of service, new employees receive the full employer contribution for dependent health coverage.

New employees in BUs 2, 7, 10, 12*, 13, 16, 18, and 19* not previously eligible for health benefits under State civil service, receive:

- 50 percent of the employer contribution for dependent health coverage during the first 12 months of service.

- 75 percent of the employer contribution for dependent health coverage during months 13 through 24.
- After completing 24 months of service, new employees receive the full employer contribution for dependent health coverage.

*Effective July 1, 2014, employees represented by BU 12 or 19, who first become eligible for health benefit enrollment or are receiving 50 percent of the normal employer dependent portion of the health contribution, shall be subject to a 12-month dependent health vesting schedule. Employees will receive 75 percent of the employer contribution for dependent health coverage during the first 12 months of service and the full employer health contribution after completing 12 months of service.

Implementation of the 12-month dependent health vesting schedule for BU 12 is subject to the economic trigger provision described in MOU section 2.2 Salaries of their MOU.

What prior State service exempts new employees from dependent health vesting?

A new employee must meet all of the following criteria to be exempt from dependent health vesting:

- Previous appointment date prior to January 1, 2007 for employees in BUs 1, 3, 4, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, and 21 and July 1, 2006 for employees in BUs 2 and 7;
- Must be a State civil service appointment (UC and CSU appointments are not State civil service); and
- Employee must have been eligible for State health benefits (it does not matter whether or not the employee actually enrolled in health benefits, as long as they were eligible to enroll).

What counts as a month of "service" for dependent health vesting?

The vesting period begins with the month an employee is first eligible for State health benefits. The vesting period is a continuous 12 or 24 months, unless the employee permanently separates from State service. Upon reinstatement following a permanent separation, the employee must serve the remainder of their vesting period.

For Permanent Intermittent (PI) employees, the vesting period begins following the completion of a control period; at the point the PI becomes eligible for health benefits. For example, if a PI meets the required hours in the July 1 through December 31 control period, they first become eligible for health benefits on February 1. The vesting clock starts on February 1 and continues to run unless the PI permanently separates or loses health eligibility. Upon reinstatement or resumption of health eligibility, the employee must serve the remainder of their vesting period.

If an employee from a non-vesting bargaining unit or an excluded employee transfers to a bargaining unit subject to dependent health vesting during their first 12 or 24 months of service, are they subject to dependent health vesting?

A State employee already receiving the 100 percent employer health contribution remains at the 100 percent contribution level.

If an employee from a bargaining unit subject to dependent health vesting transfers to a bargaining unit not subject to dependent health vesting during their first 12 or 24 months of service, must they continue to serve out their vesting period?

The employee begins receiving the 100 percent employer health contribution upon appointment to the non-vesting bargaining unit.
