**Return all tags to: Department of Fish and Wildlife Tagging Program
 2109 Arch-Airport Rd
 Suite 100
 Stockton, CA 95206
 (209) 234-3420**

Catch and release with care

Be prepared to catch and release before you catch that fish!

- ✔ Keep the fish in the water.
- ✔ Wet your hands or wear wet cotton gloves to handle the fish.
- ✔ Remove the hook quickly.
- ✔ Don't play the fish to exhaustion.
- ✔ Hold the fish upright and facing the current until it is able to swim away.
- ✔ Hold the fish horizontally for pictures - not by its gills.

Is it green or white?

Green Sturgeon

Barbels closer to tip of snout than to mouth

Midlateral plates 23-30

White Sturgeon

Barbels closer to tip of snout than to mouth

Midlateral plates 38-48

Upper lobe of tail extended

White sturgeon are gray with a uniform pale belly. They are caught much more often than green sturgeon.

Green sturgeon are olive green with a dark stripe on belly. Their scutes are more prominent than white sturgeon scutes.

Left: Green sturgeon Right: White sturgeon
